

Microorganisms and the Human World

California Education and the Environment Initiative

Approved by the California State Board of Education, 2010

The Education and the Environment Curriculum is a cooperative endeavor of the following entities:

California Environmental Protection Agency
California Natural Resources Agency
Office of the Secretary of Education
California State Board of Education
California Department of Education
California Integrated Waste Management Board

Key Leadership for the Education and Environment Initiative:

Linda Adams, Secretary, California Environmental Protection Agency
Patty Zwarts, Deputy Secretary for Policy and Legislation, California Environmental Protection Agency
Andrea Lewis, Assistant Secretary for Education and Quality Programs, California Environmental Protection Agency
Mark Leary, Executive Director, California Integrated Waste Management Board
Mindy Fox, Director, Office of Education and the Environment, California Integrated Waste Management Board

Key Partners:

Special thanks to **Heal the Bay,** sponsor of the EEI law, for their partnership and participation in reviewing portions of the EEI curriculum.

Valuable assistance with maps, photos, videos and design was provided by the **National Geographic Society** under a contract with the State of California.

VA #1 Bacteria

- Bacteria are so small, 1,000 can fit on the head of a pin.
- Some have bodies shaped like grapes, hot dogs, or slugs.
- Bacteria have simple a cell structure, without a nucleus.
- Bacteria can break down almost anything, especially dead animals and plants.

VA #2 Fungi

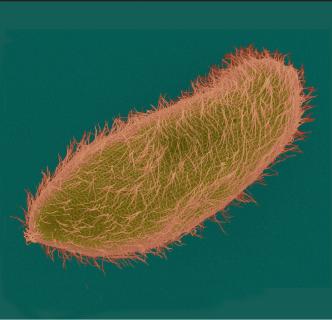

- Most fungi are too small to see, but some are as big as a football.
- Fungi have a body (mycelium) and thread-like structures (hyphae).
- Fungi come in many shapes and colors.
- Yeast, mold and mushrooms are fungi.

VA #3 Protists

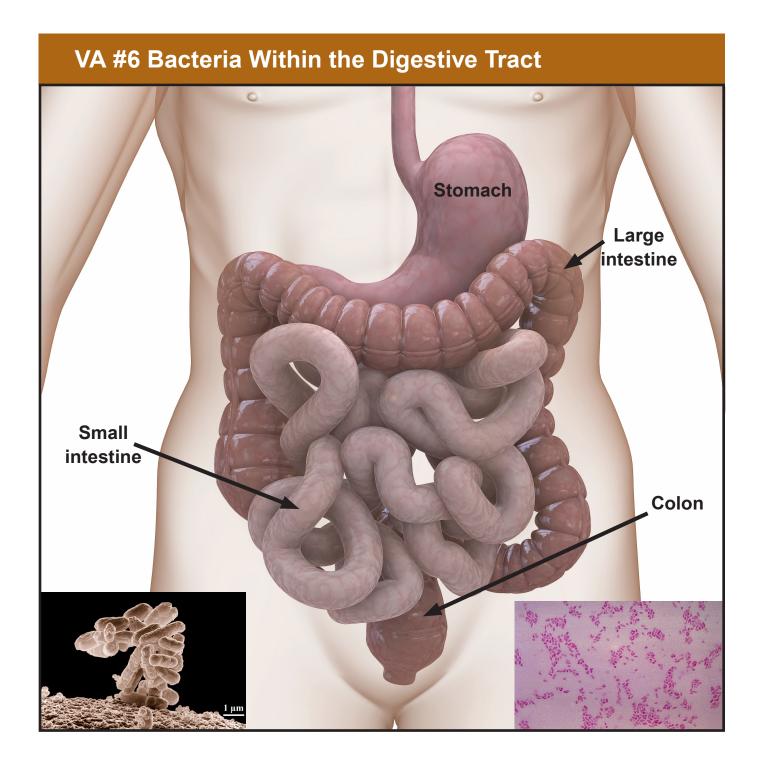

- Most cannot be seen without a microscope.
- Protists live in water.
- Some protists use cilia (look like hair) to move in water.
- Some protists look like "blobs" full of water and can change shape as they move.

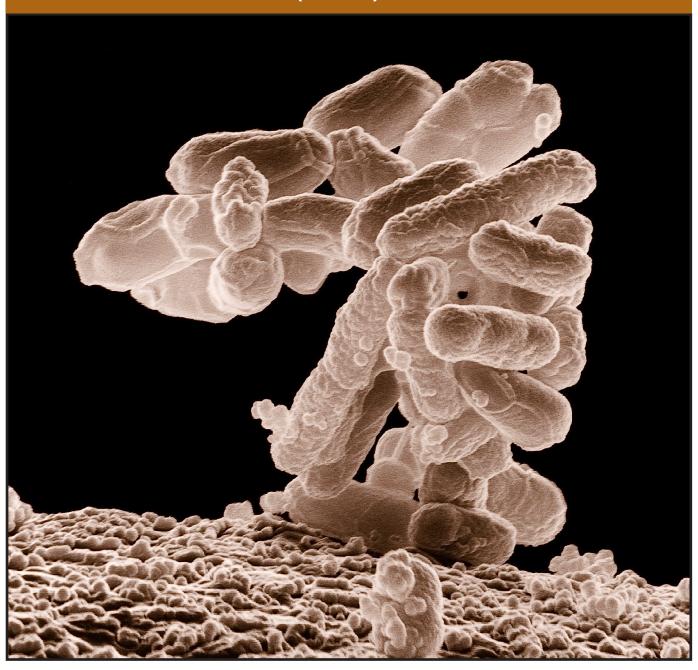

VA #5 Moldy Foods 2

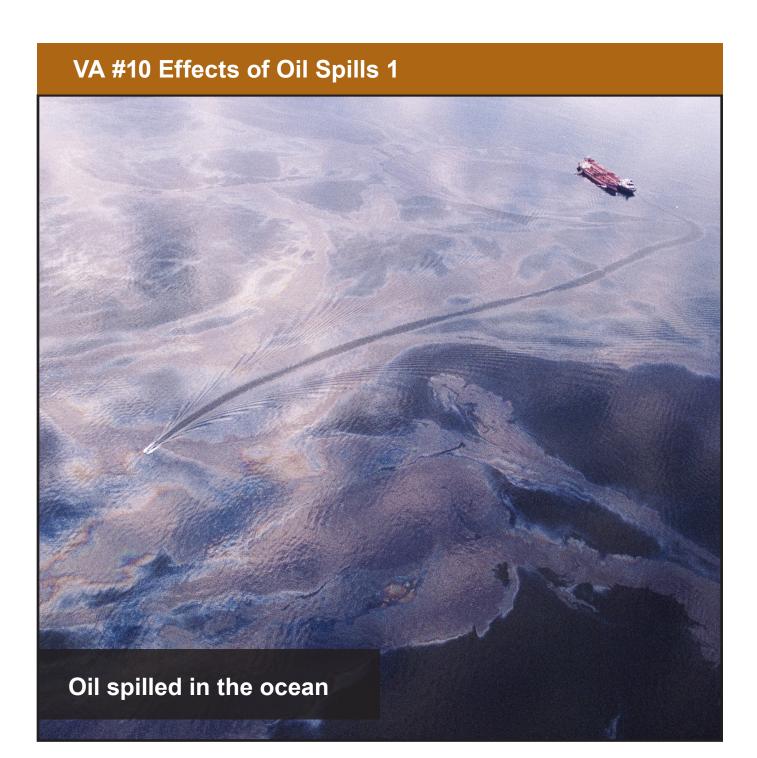

VA #7 Eschericha coli (E. coli)

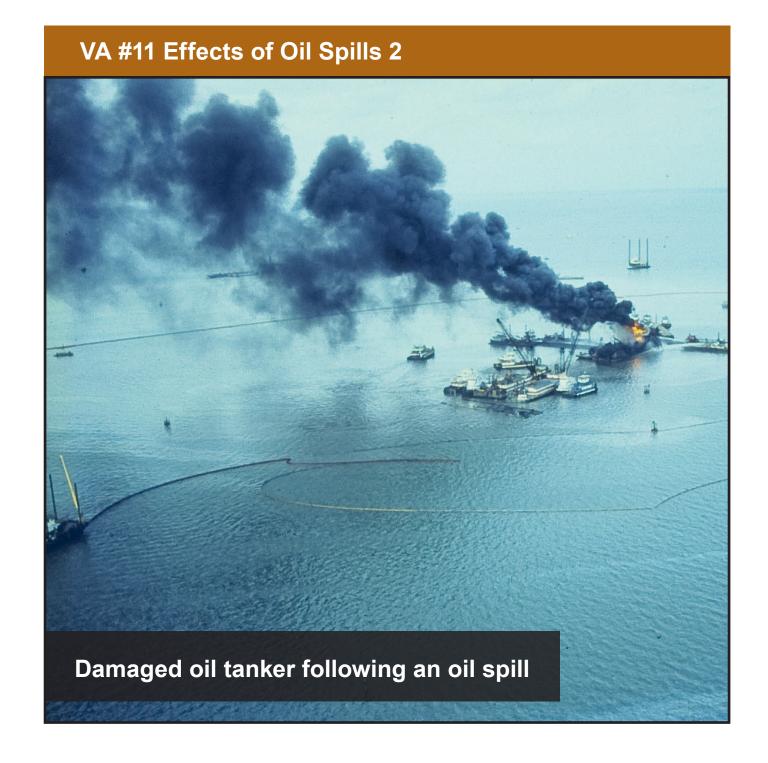

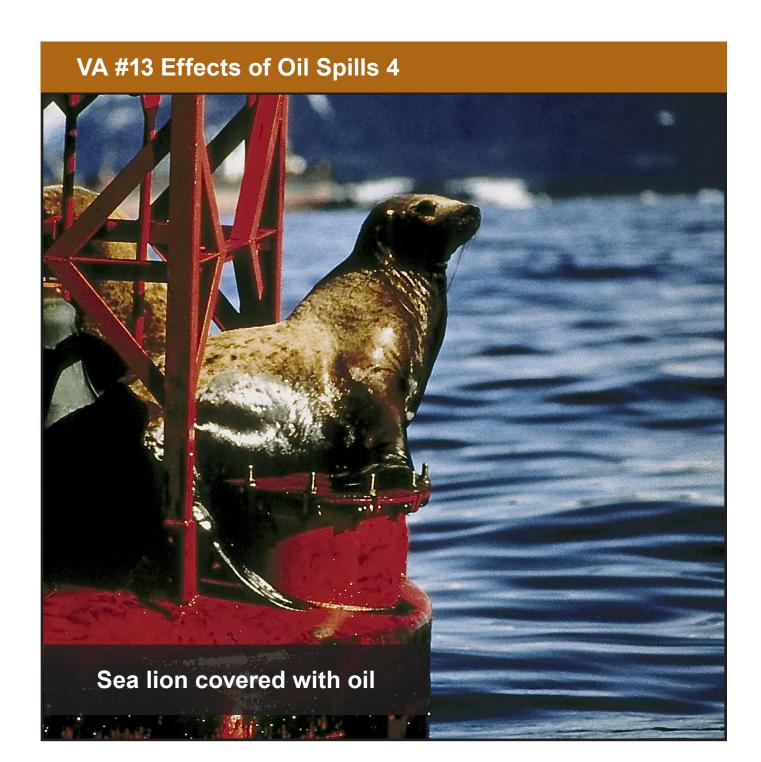

VA #9 Foods from Microorganisms

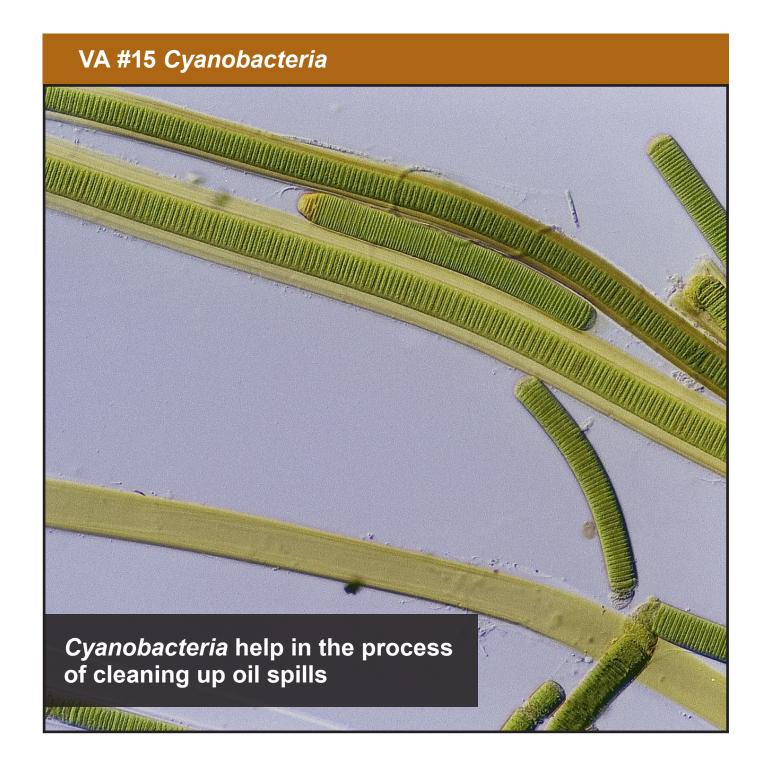

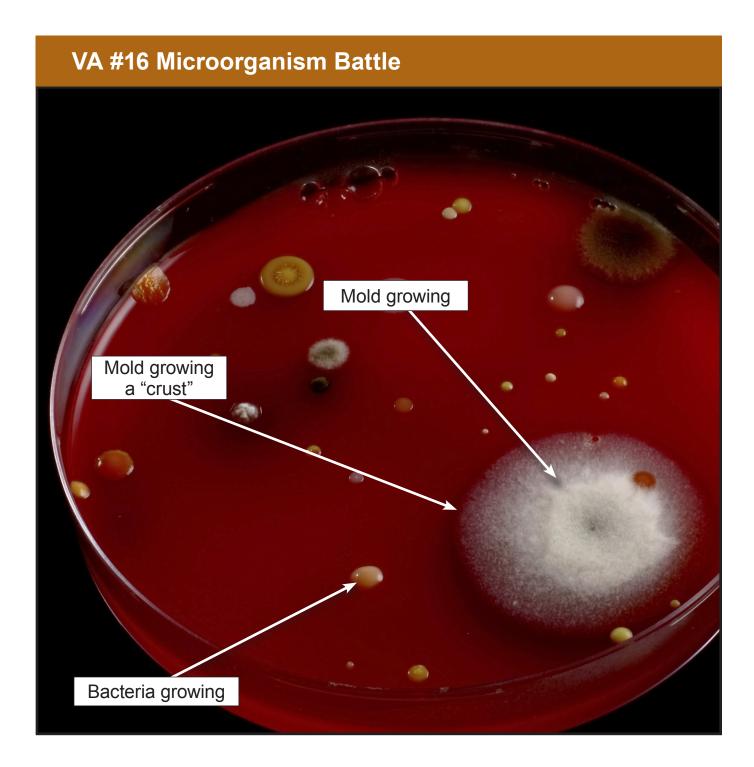

VA #12 Effects of Oil Spills 3 Oil on duck after an oil spill (Note: People should wear gloves to handle animals covered in oil because chemical contaminants can travel through skin.)

VA #14 Effects of Oil Spills 5

California Education and the Environment Initiative
